

## SPECIFICATIONS & FEATURES

# eFoil

### Overview

eFoil is an ultra-thin electric radiant floor heating system primarily for use under laminate, engineered wood and glued hardwood. Uniform heating is achieved by the specialised materials used, which also eliminates problems due to hotspots or localised heating. As the eFoil is fully earth protected and covered in aluminium foil, the mat can be installed in wet areas, including bathrooms and kitchens.

### Specification

Thickness	3mm
Output	140W/m <sup>2</sup>
Operating Voltage	230/240V
Cold tail connection lead	3m
Standards	Intertek S-Mark

### Features

- Ultra-thin heating cable
- Twin conductor heating cable
- Complete earth braiding
- Easy to install

FULL EARTH PROTECTION
